Hi Jeiyoon,

You have now officially been granted NVIDIA Deep Learning Institute (DLI) University Ambassadorship. DLI Ambassadors are a select group of DLI Certified Instructors committed to teach DLI instructor-led workshops at universities, academic conferences at no cost exclusively for academic students, staff, and researchers.

**Ambassador Benefits:**

- Free DLI Instructor Certification (USD\$1,000 value)
- Ability to bring free, world-class DLI training to your academic community using proven DLI cloud-based training platform and lecture materials (USD\$500 value per student)
- Formal badge and recognition for DLI University Ambassador and Certified Instructor status (found in Event Kit below)
- Reimbursement for catering and travel expenses up to USD\$500 per hosted DLI workshop (reimbursement requests submitted with receipts if you plan to claim reimbursement)
- Access to the [DLI Ambassador Event Kit](#) for best practices guides, instructor badges, "Train-the-Trainer" assets, event promotion assets, expense reimbursement process, and other useful resources
- Access to [DLI Teaching Kits](#) and free cloud-based GPU platforms for students in curriculum courses (for academic institutions only)
- Free DLI workshop training passes (subject to availability)
- Opportunity to purchase DLI workshops from NVIDIA at a discount and resell to industry customers

**Ambassador Contributions:**

- Host/teach at least two DLI instructor-led workshops in every 12-month period starting today. Ambassador workshops can be given in a variety of settings and universities (not limited to your own) including curriculum courses, lab seminars, conference tutorials, etc. *We now also support Ambassadors delivering live, online workshops with their own systems (still using the DLI Platform) that provide the audience a good learning experience*
- Provide and enable your own teaching assistants (TAs) for your workshops, one for every 20 attendees after the first 20
- Promote your workshops via email, university website, in classrooms, at conferences, etc. using DLI Ambassador Event Kit resources
- Manage attendee registrations ensuring only relevant audience is admitted (i.e. through [Eventbrite](#) using provided template in Ambassador Event Kit)

Some of the above benefits and contributions are subject to change. More information about the NVIDIA DLI Certified Instructor Program can be found [here](#) (NVIDIA developer program registration required).

Thanks and congratulations again, we look forward to working with you to organize your first Ambassador Workshop! The first step to organize your workshop is to fill out the Ambassador Workshop Request [form](#). If there are any questions, please let us know.

Kind Regards,

Joe Bungo
